

## Provider Enrollment and Management System

Pharmacy providers now enroll, re-enroll, revalidate, submit changes in pharmacy information, and submit a change of ownership to Texas Health and Human Services Commission (HHSC) through the Provider Enrollment and Management System (PEMS).

- Pharmacies must have a current and valid license Class A or C, or registration with the Texas State Board of Pharmacy.
- Pharmacies must enroll with HHSC as a Medicaid provider before participating in other state programs or any managed care pharmacy network.
- An enrollment fee payable to HHSC is required for all pharmacy providers.
- Additional supporting documentation may be required to complete the enrollment process. The PEMS enrollment process will alert applicants if other supporting documentation is required.
- The enrollment process typically takes 60 business days after receiving a complete and accurate application. Pharmacy providers will receive an email confirming enrollment.
